

## Community Sailing Survey

PortSide NewYork wants to start a Community Sailing Program. Such programs offer low cost and free programs, lessons, and events on boats many people use. They can be structured a number of ways – that’s what we want to discuss with you.

We need permission from the Parks Department to locate the boats in Valentino Park.

Before we ask for permission, we need to hear from you! We need to know how many people are interested, what sort of programs they want etc. Then, we’ll share all this with the Parks Department.

Please fill out the questions below and get back to us ASAP (by June 8 please!).
